

Hose Attached Spot Watering System:

For how often to water and how many gallons to apply, see our General Guide for How Much and How Often to Water handout.

Parts:

Hose-Attached Bubbler (for example Rocky Mountain Goods Bubbler Sprinkler or similar)
Source: Amazon Cost (2022): Appx. \$12

Gardena Water Smart Flow Meter
Source: Amazon Cost (2022): Appx: \$27

Note: When first using, check if the meter is reporting Liters or Gallons. If it is reporting liters, switch it to gallons by doing the following:

- Start in the mode where the device reports the active flow per minute. Under the numbers it will say "Liter per minute."
- Hold down the orange button for approximately two seconds. It will switch to display "Gallons per minute."

NOTE: The recommended mode to use it for operation is "Auto," which will display above the numbers. In Auto mode, the running total of gallons used will automatically reset whenever the flow stops. Use the hose shutoff valve attached below the meter (see next page) to turn off the flow when moving the bubbler between locations to make the meter restart.

Garden Hose Shut Off Valve (to adjust to a low flow, be sure flow is enough that the meter is reading and the flow icon appears on the meter display):

Source: Hardware Store or Amazon Cost: (2022) Appx. \$7-8

or

Dramm 12353 Heavy-Duty Brass Shutoff Valve (to adjust to a low flow, be sure flow is enough that the meter is reading and the flow icon appears on the meter display):

Source: Hardware Store or Amazon Cost (2022) Appx. \$27
